

A Gardener's Response to Climate Change

**A talk by Caroline Halfpenny
Wednesday 11th September**

Church Barn, Charing, 7.30pm

A topical look at how we can 'future proof' our garden in response to changes in our environment. The talk will look at how climate has changed and impacts our choice of plants and the seasonality of gardening practices, how we mitigate these changes including soil, predators, mowing and composting and how plants have adapted.

**Entrance: Members £2
non-members always welcome at £3
including refreshments. Raffle and Plant Stall.**
